SEWP VI Overview

NASA's Solutions for Enterprise-Wide Procurement (SEWP) VI is a multi-award, Best-in-Class Government-Wide Acquisition Contract (GWAC) that gives federal agencies a streamlined, one-stop vehicle for acquiring Information Technology, Communications, and Audio-Visual (ITC/AV) products and services — from hardware, software, and cloud solutions to installation, integration, cybersecurity, and managed services. SEWP VI is structured as an order-level, multiple-contract-type GWAC capable of issuing Firm-Fixed-Price, Time and Material, Labor Hour, Fixed Price Award Fee, and Fixed Price Incentive Fee task orders. Building on the success of its predecessor, SEWP V — the largest GWAC in the federal government by spending, having awarded more than 200,000 task orders totaling over $50 billion — SEWP VI is valued at up to $60 billion and is designed to give agencies a faster, more efficient way to buy IT, communications, cybersecurity, AV, cloud, and managed services through pre-approved contract holders, with a period of performance from November 1, 2026 through October 31, 2036.

Fair Opportunity

A.1.13 FAIR OPPORTUNITY AND REQUESTS FOR QUOTES

Contractors will be provided a fair opportunity at the individual order level as appropriate per FAR Part 16.505(b), including the SEWP RFQ tools. No documentation for the order selection is required to be submitted with the order. All such documentation is to be maintained by the issuing procurement office.

The Contractor shall not market, quote or otherwise offer for sale, any IT Solutions not listed under this contract, until the said solutions are included in the SEWP database of record, and available to all Government end-users.

If the Government issues a Request For Information (RFI) as part of market research, the Contractor may provide items not yet listed on their SEWP contract as part of a market research quote if:

1. all such items are clearly marked as not yet available on their SEWP contract; and

2. the contractor submits a technology refreshment request to add those products to their contract

If the Government issues a Request For Quote (RFQ) or a Market Research Request (MRR), the Contractor may only respond with items available on their Contract and the price of each item shall be the no greater than the price in Attachment F SEWP database of record at the time the quote is issued. If the Contractor has insufficient items on their contract to fully respond to the Formal RFQ, the Contractor must respond with a No Bid.

Unless the RFQ specifically allows for partial quotes, the Contractor must respond fully to all requirements specified in the RFQ.

When submitting a quote to a government end-user, the contractor must clearly state the length of time the quote is valid. The contractor shall honor any order submitted within the stated time period of a quote.

When responding to an RFI or RFQ issued from the NASA SEWP RFQ on-line quoting system, the Contractor must respond as outlined in Attachment C: Contract Holder User Manual (CHUM).

Contract Holders are prohibited from using Government information posted on the NASA SEWP Contract Holder Only Page, such as RFQs, RFIs, etc., for purposes other than proposing on SEWP requirements. This includes Contract Holders providing third parties with SEWP information and requirements for the purpose of assisting companies, that are not SEWP Contract Holders, with providing unsolicited proposals to meet agency requirements already posted to the NASA SEWP RFQ on-line quoting system.

Placing a SEWP Purchase Order
